Electronic Article Surveillance System

Electrical Specifications:

Operating distance:	140cm with 4×4 labels, 180cm with hard tags
Alarm light:	Light emitting diodes (LED's) on receiver antenna
Alarm sound:	Buzzer, 90dB @ 1 m
Characteristic:	Moving Fields
Operating frequency:	8.2MHz (±10%)
Power supply:	External AC/AC adapter, 110V/ 230V; 24VDC, with integrated EMC filter 8
Transmitter:	master, slave
Synchronization:	Wire
Synch input:	1 × Wire Synch Input
Synch output:	2 × Wire Synch Output
Receiver:	digital
Synchronization:	Wireless

Mechanical Specifications:

Height:	1535mm
Width:	415mm (439mm at base)
Depth:	60mm
Weight:	9kg
Material:	Aluminium Alloy
Covers:	Steel, Gray
Center Panel:	None
